

**LLB Workshop on New Opportunities in
Neutron Scattering: Small to Medium
Sources and Their Applications**

May 18-19, 2015

Paris, France

Questionnaire

Please return to Pascale.Jegou@cea.fr, Christiane.Alba-Simionesco@cea.fr

Name:

Affiliation:

Email:

1. What is your principle research interest?

Please illustrate it with 5 keywords :

2. Indicate your interest in using neutron beams:

- Scattering
- Imaging
- Cross-section measurements
- Materials Irradiation
- Other – please specify

3. Which Facilities do you use for your research?

Are you a frequent user ? Are you working with occasional user or colleagues who never perform NS experiments? How often do you require a NS experiment?

- 4. What specific instruments do meet the needs of your research program ? (methods, performances, support)**

Are including NS in your proposals for funding ?
How complementary from your home techniques?

- 5. Do you teach students neutron methods?**

- 6. If you use Orphee at the moment where will you carry out your research/training when it shuts down?**

- 7. Do you think that access to a French National Facility is critical for your research/training programs? Should be the access be centralized ?**

- Yes
 No
 Comment

- 8. Would you like to participate in a strategic planning group for a new national facility?**

- Yes Expertise:
 No

- 9. Was this workshop useful for you?**

- Yes
 No
 Comment
