

TECHNISCHE
UNIVERSITÄT
WIEN
Vienna University of Technology

The Atominstitut of the Vienna University of Technology is hiring a

Senior Design Engineer

Your job will be:

- complex CAD designs
- finite-element simulations
- processing, incl. quality management, of external and internal mechanical manufacturing
- working in an environment of a nuclear reactor

Your professional profile should be:

- degree in mechanical engineering or equal experience
- several years of extensive experience in mechanical design and manufacturing
- very good knowledge of finite-element simulations
- basic knowledge of neutron physics or willingness to familiarise with it

The Vienna University of Technology is the major technical university in Austria, with 4.500 employees. The Atominstitut is well known in the fields of nuclear, radiation physics and quantum optics. The institute offers a vibrant working environment. This is strongly influenced by the dynamics of research conducted at the institute at an internationally competitive level, in addition to the variety of researchers working here.

The minimum annual salary is 37.000 € (gross), with additional benefits, i.e. health insurance and pension coverage. A high level of experience and qualification of candidates will increase the salary. Contract type: fixed term contract until 31.12.2015.

We look forward to receiving your application. Please submit your application via email to tu-jobs@tuwien.ac.at **until 27.8.2014**. Please include your CV and a cover letter explaining your motivations for applying. For further information please contact Prof. Hartmut Abele (abele@ati.ac.at).

The Vienna University of Technology is committed to increase female employment. Qualified female applicants are encouraged to apply and will be given preference if equally qualified.
